Primary duty was to recognize and provide current and future customer necessities in areas of filtration and lubrication products and services. Initiated Lubrication Fundamentals classes for employees and customers, which provided education on basic product info, machine elements that need lubrication, application methods, storing lubricant, and lubricant conservation and handling. Designed and applied a highly effective industrial filtration program that produced up to 2,000 gallons of processed oil weekly, which resulted in a considerable expense saving for the customer and improved profits for the company. Designed and applied for numerous lubrication programs, providing additional value-added services and improved profit margins. Functioned as a consultant on Best-in-Class Lubrication programs.
